DIRECTIONS

Place all cutting in the green canvases provided (no need to leave a boarder)

File set-up colours

- Cutting = RED
- Scoring = BLACK
- Engraving = Blue (filled shapes)

Please place cutting, scoring and engraving on separate layers

Label all materials under each sheet

Please remove all clipping masks and fills (only vectors will be cut)

Add or delete canvases as required

File formats: 3dm. (rhino), ai (illustrator), .pdf

When using pdf and ai please make sure all sheets are placed on a single artboard as per the template provided. Add a second artboard when necessary.

File set-up notes

- Ensure to remove all double lines (rhino command: 'seldup' or 'makes2d')
- Please leave a 2mm space between each cut object
- Ensure all lines are joined (artwork will not cut-out properly if polylines are broken)
